A RICH FIND.

Hesse Cassel Syndicate Excavate for a Brewery Foundation and Strike a Vein of Silver and Copperas.

Messrs John Dravert and Peter Trautman, two substantial citizens of Hesse Cassel, were in the city yesterday. Hesse Cassel is situated some nine miles northeast of Fort Wayne and in the settlement are some of the oldest and wealthiest farmers in the county.

Mr. Dravert related to Peter Eggeman, the boot and shoe merchant, and others the story of a rich find out at the old village.

A syndicate was formed out there to construct a big brewery for the manufacture of "Berlin white beer." This brew is made directly from wheat. After it is first brewed quantities of water are added and the beer is steamed again, finally coming out of the vat as white and dear as light wine.

"We resolved to put our wheat into this business rather than sell it for 65 cents a bushel" said Mr. Dravert, "and we have arranged to buy up all the grain in our section of the country."

In excavating for the foundation for the brewern, which is to be an immense structure, the workmen came on to a rich vein of oil at a depth of four and five feet. An examination of the substance revealed the presence of silver, mixed with some copperas. Mr. Dravert brought samples of the ore to the city for analysis and a company is already formed to work the lode.

Simon Arentz, of this city, is interesting himself in the project and retains samples of the ore, which promises to be profitable.

In the meantime the brewery project will boom and the people of Hesse Cassel soon expect thriving miners out there to sip the tart beverage from the new brew.

TOO HOT.

The Late Crops Are in a Bad Way for the Want of Rain.

Up to this time the outlook for the farmer has been as bright as it well could be, but the condition of affairs now is such as to justly excite the most serious apprehensions. The long continued heat and drought cut short materially the yield of hay and oats, and is burning up the pasturage. Much of the earlier corn is in silk, and such is sustaining the most serious injury. Corn in the silk must have rain, or the the ears will not fill, and the yield—what there is of it—will be all cob and no kernels, and a few country men say that potatoes are likely to roast in the earth. Persons who have driven over the country within the last day or two report that everything is fairly burning up, and that the prolonged drought and heat threaten to assume the dimensions of a serious disaster.

THE BUCKEYE SLATE.

The Ohio Republicans Select a State Ticket—Governor Foraker Re-Nominated—The Proceedings, the Platform and the Ticket.

TOLEDO, O., July 28.—The republican state convention was called to order at 10 o'clock by Chairman Ryan. The committee on credentials and rules reported, and it was adopted, and ex-Governor Charles Foster, chairman of the committee on resolutions, read the platform, as follows:

1. We are in favor of a protective tariff, to secure to American citizens the privilege of supplying every article which can be produced as well in the United States as in all other countries, sufficiently to supply American wants. We denounce the Ohio democratic platform of tariff for revenue only, and which demands an indiscriminate reduction in all the duties on imported articles, the effect of which would be to encourage importations, thus giving the American patronage to foreign producers and foreign labor, rather than to our own.

2. While we adhere to the public policy, under which our country has received from Europe great bodies of honest, industrious citizens, who have added to the wealth, progress and power of our country, and while we welcome to our shores the well disposed and industrious emigrant, who contributes by his energy and intelligence to the cause of free government, we view with alarm the unrestricted immigration from foreign lands as dangerous to the peace and good order of the country and the integrity and character of its citizenship. We urge upon congress to pass such laws and establish such regulations as shall protect us from the inroad of anarchists, communists, polygamists, fugitives from justice, insane, dependent paupers, vicious and criminal classes, contract labor in every form, under any name or guise, and all others, who seek our shores, not to become part of our civilization and citizenship, who acknowledge no allegiance to our laws, no sympathy with our aims and institutions, but who come among us to make war upon society to diminish the dignity and rewards of American workingmen and degrade our labor to their level. We recognize also the dangers which menace American labor at home and condemn as hostile to its cause and as subversive to its dignity and power the bold and persistent usurpation, in many states, of its political rights and privileges. The condition of men who labor in the north cannot be maintained or improved so long as the men who labor in the south are wrongfully deprived of the rights and powers of American citizenship. Their labor meets in close and immediate competition, and neither can be degraded without striking at the prosperity and independence of others. Recognizing these plain truths, we demand a free ballot and a fair count in all sections of our country. We demand it and will ever demand it as the only source of justice to the real producers of prosperity and wealth, and the sole security of the republic and its free institutions.

3. We deprecate the national strife and divisions. We have placed war with its hates and revenges behind us, but the settlers of the war must stand irrevocable—respected, honored and observed in every part of the republic. More we have never demanded, less we will not have. Congress should exercise its constitutional authority and take control and supervision of the actions of representatives to congress.

4. We demand such duties on wool and manufacturers thereof as will secure the American market to American producers. We denounce the demand made under President Cleveland's administration by the secretary of the treasury for "the immediate passage of an act placing raw wool upon the free list," and we denounce the democratic state platform which proclaims its hearty and unqualified endorsement of said administration and demands a "reduction of the present duties on wool and on woolen and worsted goods. We earnestly protest against the decisions of the secretary of the treasury in customs, cases in the interest of the foreign producer and foreign labor as in opposition to the letter and spirit of the tariff laws.

5 We favor liberal pensions to the soldiers and sailors of the union; adequate appropriations for improvement of our water-ways, and national aid to education. If too much revenue be collected to meet these and other public needs, we demand that the first step in the reduction thereof shall be the abolition of the internal revenue tax upon American grown tobacco.

6 That the public lands of the United States be sacredly held for the use and benefit of actual settlers alone and that the laws prohibiting the owning of these lands by corporations and non-resident aliens should be rigidly enforced.

7. While we condemn the false pretenses of President Cleveland's administration of the civil service law, we advocate the maintenance and proper enforcement of said law and demand such additional legislation as will remove appointments from partisan influence.

8. The republican party has ever been a friend of oppressed nationalities and we extend a hearty sympathy to Gladstone, Parnell and their associates in their efforts to secure home rule for Ireland.

9. We condemn the action of Cleveland in vetoing pension bills, and especially we denounce the spirit manifested toward the maimed and disabled soldiers of the country in the language in which certain of his vetoes are couched, and we condemn as unjust and unmerited his veto of the dependent pension bill, and declare that it was in plain violation of the nation's pledges to its defenders and of the oft repeated promises of the democratic party of the north, made during the political campaigns to secure votes. We demand of congress that it pass, and of the president that he approve liberal enactments pensioning the soldiers of the country that the helpless widows of dead soldiers, regardless of the cause of death, disabled soldiers and dependent parents shall receive the bounty of the nation they fought to save, and which they richly deserve.

10. This section favored protection to the innocent infringers of patents.

11. We heartily endorse the administration of Governor Foraker as wise, prudent, firm and economical, and we do especially endorse and approve his patriotic declaration that no rebel flags shall be surrendered while he is governor, and we further endorse and approve his prompt action in instituting measures to prevent the unlawful order of President Cleveland being executed.

12.—This section condems frauds, forgeries and crimes committed by the democrat party in Ohio in the election of 1885 and endorses the action of the legislature to prevent the consummation of that crime.

13.—We point with just pride to the enactment of the Dow law, in the fulfillment of the promises of the Republican party and we pledge ourselves to such further legislature as may be necessary to keep abreast with the question to the end that the evil resulting from the traffic in intoxicating liquor be restrained to its utmost possible extent in all parts of the state.

14.—We favor such legislation as will secure to the agricultural commercial and industrial interests of the state equally without discrimination in favor of any citizen or corporation, the benefits of transportation by common carriers at the lowest rates consistent with justice and that the water ways of the state should be sustained and improved, so as to secure to the people the full benefits thereof.

15. (This is the Sherman endorsement.)

When the last resolution of the Sherman endorsement was reached the cheering broke out, and on a call from a delegate three cheers were given for Sherman before the reading could continue. Its close was marked by loud cheers and a motion was made to adopt the whole platform by acclamation. It was done without a dissenting voice.

Cheering followed and loud calls were made for Sherman but he did not appear.

The report of the committee on permanent organization was read and adopted.

Hon. John Sherman was made chairman.

A committee of three was appointed to conduct Mr. Sherman to the chair, which they did amid prolonged cheering.

His speech was listened to with close attention and received wtih every demstration of applause Especially his disclaimer that the endorsement resolution had any binding effect on the district conventions next year.

Dr. Graydon of, Cincinnati, nominated Governor Foraker for his second term in a ten minutes speech.

The motion was carried by acclamation amid a whirlwind of cheers.

A committee was appointed to escort Foraker to the hall. The nomination for lieutenant governor was proceeded with. Hon. Asa Bushnell, of Springfield, was named, but declined because of imperative business interests, which would suffer. Senator Thos. J. Pringle, of Springfield, and also Capt. W. C. Lyons, of Newark, were announced.

At this moment Governor Foraker was escorted to the platform amid cheers. He accepted the nomination for governor amid cheers, in which he made answer to some charges made against him by the democratic platform.

Captain Lyons was chosen for lieutenant governor on the second ballot and Judge William Spear was nominated for supreme judge for long term by acclamation. For the short term, Judge F. B. Dickman was renominated on the first ballot.

RAILROAD HORROR.

A Fearful Railroad Wreck in Illinois Causes the Death of Twelve Persons and Injures Others.

BLOOMINGTON, Ill., July 28.—A construction train on the Chicago & Alton, on which were nearly 100 laborers, was run into by a freight train at 3:30 p. m., yesterday, and the result was a dreadful smash-up with serious loss of life. The freight train was bound for Kansas City and met the construction train on the Owensdorff bridge, near Hopedale, 25 miles from Bloomington. The following were killed on the construction train:

Morton Dunsith, water carrier, of Delavan, Ill.

James Brown, of Hopedale, Ill.

Frank Drake, of Petersburg, Ill.

Plano Barrow, of Ashland, Ill.

James Kellogg, residence unknown.

Nine were wounded. The responsibility for the wreck has not been located.

A special from Pekin, Ill., says: Ten dead bodies have been taken from the wreck of the construction train at Hopedale and eight men are unaccounted for. It is supposed the missing men are dead in the wreck, in which case the number of dead is 18, with a probability that the list will be swelled to twenty-two by the death of those supposed to be fatally injured.

LATER.

Twelve persons have died from the injuries received on the Chicago and Alton railroad, and at least thirty were injured, most of them slightly.

PITTSBURG, July 28.—Early this morning an engine and mixed freight train fell through the Mt. Savage bridge, a few miles west of Cumberland The engineer, Wm. Driscoll, and Fireman William Patne were instantly killed.

READING, Pa., July 28.—A covered wagon as run into by a train on the Pennsylvania railroad at Ridgewood station this morning and four persons killed.

IS IT A COMBINE?

The Lowest Bidder for the Water Works Wells Abandons His Contract—The Council Asked to Investigate.

Yesterday afternoon Water Works Trustees Hedekin and Kunkle met at their office and awarded the contract of sinking four wells at the pumping house to Mr. Ebler, of Lima. He signed a contract to build four wells at the following figures:

First well, 500 feet, $1,400.

Three additional wells, 500 feet, $1,150 for each well.

Making a total of $4,850 for four wells.

Mr. Ebler left for Lima ostensibly to procure a bond. This morning he sent a dispatch, saying he could not sink the wells—at least for a long time.

This leaves the trustees at the tender and willing mercy of Mr. W. M. Weeder, the other bidder for the work. His figures are not at hand, but they are considerably higher than those of Mr. Ebler's.

Mr. Weeder did not leave town when the contract for the well was awarded to Mr. Ebler. He remained over to note the natural and other beauties of the city and bobbed up in the presence of the water works trustees this morning.

To be sure nothing of the sort would be possible, but to the fellow standing on the reservoir the affair smacks loudly of a combination to squeeze the city out of a thousand or two additional dollars, by compelling her to let the highest bidders sink the wells.

Happily no contract with anyone holds good until the council ratifies it Parties were around last evening trying to get the council into special session to ratify the well contracts, but the matter began to leak out and a nice expose is promised, because the council will not act on this matter without an investigation.

His new wagon will make regular morning trips and it will costantly add to the already large business of this popular establishment.

This morning a party of six strong, healthy-looking tramps were sitting in a shady spot on Murray street enjoying a lunch that some of the party had begged from some of the residents of that vicinity. They were begging their way through the world because, as they said, there was no work to do, when almost within a stone's throw of them were a half dozen manufactuning establishments which are anxious to secure common laborers and who would have given them employment had they applied for it. But thes fellows don't want work. They can get through the world without it, and the tramp force is constantly increasing in numbers.

BASE BALL.

Trouble Among the Clubs of the American Association and Four of Them Threaten to Withdraw.

NEW YORK, July 28.—Another startling baseball sensation was started yesterday. It was said that at least four of the American association clubs were to resign. The fight in the association has now assumed such a threatening look that it bids fair to demoralize the organization, as at least four clubs have threatened to withdraw, unless the percentage system is adopted. The St. Louis, Louisville, Cleveland and Metropolitan clubs are the four. Von der Ahe will go into the league unless the change is made.

To a reporter Mr. Von der Ahe said: "I have about determined to leave the association because of the way I have been treated. This man Wikoff is incompetent and does as he is told by Byrne. I have done with the whole lot of them. I have made money for them all, but they can't make money for me, and besides, what little I might make is taken back in fines. Last year I paid three-quraters of all the fines imposed or nearly $800 of the $1,200 paid into the treasury.

WHAT THEY COST.

A Huge Pile of Money Expended on the Water Works and Useless Supply Experiments.

To the Editor of The Sentinel.

Please state in THE SENTINEL what the water works cost and also the cost of the useless experiments on the water supply.

Yours truly, W.

According to the report of the trustees, the total cost of the water works is $370,913.50.

The cost of the useless experiments on a water supply is summed up from official figures as follows:

Reservoir ground—$24 000, useless.

Reservor hill—$27,273.16, useless.

Supply line to St, Joe river—$6,300, useless.

Well at S. Joe river—$5,506.71, useless.

Spy Run construction—$3,447.56, some use.

Filter basin—$12 212.85, some use.

Last, but not least, sulphur wells—estimated cost $4,850, real cost unknown.

The experiment on gas wells hereabouts have developed only flowing sulphur wells. It is improbable that Providence will send any other sort of water bubbling to the trustees.

Chemists say that sulphur water will eat and ruin every bit of iron it touches inside of ten years. We all know sulphur water is unfit for household uses, so that all expenditures in that direction is not only useless, but aimed to wipe out every useful and available thing the people have left for their expenditure of $370,913.50.

P. S.—The sulphur water will leave one thing intact—the water works debt.

MRS. L. S. ROLLINS

Is Arrested for Violating the Revenue Law at Monroeville—The Trouble Down There.

Mr. James Wilkinson, the deputy United States marshal, went to Monroeville this morning and arrested Mrs L. S. Rollins, on an affidavit filed by Marshal Isaac Copps, of that village. It is charged that Mr. Rollins takes out a government license to sell liquors and then turns the business over to his wife. This is contrary to Uncle Sam's regulations hence the arrest.

The trouble, however, is but a continuation of a former collision between the marshal and Mrs. Rollins. It seems that the town council ordered a new side walk constructed in front of the Rollins property. Mr. Rollins objected and stationed his wife on the side walk to obstruct construction. Marshal Copps heaved her off gently and was arrested for assault. Thus began the neighborhood jar that sets Monroeville society all agog.

Mrs. Rollins was arraigned before United States Commissioner Harper and her trial is in progress as we go to press.

COUNCIL PROCEEDINGS.

6. I have notified the property owners on Canal Dock street, from Barr to Harrison streets, to remove all obstructions from said street to the width of twenty feet would report that some of the parties have complied with said notice and some have not.

7. The West Main street bridge is getting in bad condition; the iron rods are loose and new floor should soon be laid; the lumber inclosing the water pipes is rotting fast and the whole structure will soon require a general repairing.

8. In the matter of the resolution of Councilman Haiber, instructing me to give ten days' notice to the proper officer of the Lake Shore railroad to put suitable crossing over the right of way on Fourth street, I report that I have served the proper notice, but they have failed to do the work.

9. The county commissioners have the protection wall to the sidewalk on Cass street nearly completed, and have informed me that the city will have to do the filling, but while working there they would do the ramming and pudling by the wall, providing the city would soon bring the dirt.

10. The feeder canal bridge on Wells street is in a bad and dangerous condition. The iron rods supporting the bottom stringers are loose. Some action should be taken in the matter soon.

An Important Element
Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar" stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla, Sold by all druggists.

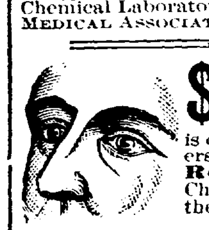
SICK HEADACHE,

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Pellets over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a gland or tissue escaping their sanative influence. Sold by druggists, 25 cents a vial. Manufactured at the Chemical Laboratory of WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.



$500 REWARD
is offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Chronic Nasal Catarrh which they cannot cure.
SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood by physicians.
By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of Catarrh, "cold in the head," Coryza, and Catarrhal Headache.
Sold by druggists everywhere; 50 cents.
"Untold Agony from Catarrh."
Prof. W. HAUSNER, the famous mesmerist, of Ithaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."
"Constantly Hawking and Spitting."
THOMAS J. RUSHING, Esq., 2902 *Pine Street, St. Louis, Mo.*, writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."
Three Bottles Cure Catarrh.
ELI ROBBINS, *Runyan P. O., Columbia Co., Pa.*, says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and procured a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and hearty."

That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve."—P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

GATHERING SEA-FOWL EGGS.

How San Francisco Fishermen Glean a Strange Harvest from Rocky Islands.

During the last eighteen or twenty years some of the fishermen of this city have been in the habit of going to the Farallones during the laying season for the purpose of gathering eggs, says the San Francisco *Call*. It is a business by no means unattended with danger. It is extremely difficult to scale the sides of the rocky islets and to gather the eggs, as the gatherer must often go in almost inaccessible places. He must often be lowered down over cliffs and frightful chasms by means of a rope, and if the rope were to be broken by the friction against some jagged side his life would pay the forfeit. Then, again, he is often attacked by the birds that he despoils of their eggs, and when they attack him in numbers he frequently has a hard time of it. They strike him with their wings, but usually cannot harm him seriously, though their annoyance shakes the nerves.

The murre or auk, which is a large but cowardly bird, when despoiled of its eggs will fly screaming away, and will make no attempt to wreak vengeance upon the despoiler. Not so the gull. This oleaginous lover of the briny deep will attack the gatherer and fly at and strike him with its wings.

Only the eggs of the gull and murre are gathered, as they are the only kind that are in the least edible. The murre is a bird of the great auk family, and in more northern latitudes is known as the penguin and puffin. It is of about the size of a goose and has a long, curved bill. Its eye has a stupid look, like that of the goose, and its plumage is of a dark-brown color. It is quite numerous in these waters. Its egg is larger than that of a turkey, and by some people it is considered a great delicacy. The egg is oval in shape, of various colors, and has longitudinal black stripes. One lady informed the writer that murre eggs fried and washed down with whisky made a delicious dish. "They are a little strong," the lady said, "but the whisky will take away the strong taste." Doubtless that lady was blessed with an ostrich-like stomach. The eggs are mostly used by the bakers in the composition of their bread, pies, and pastry. As they are much cheaper than domestic fowl eggs it can readily be perceived why they are used. The eggs of the gull are somewhat larger than a duck egg, and are of a brownish hue, spotted, and oval in shape. They also are a trifle strong.

When the gatherer goes out on a gathering expedition he puts on gum boots so as to prevent himself from slipping on the steep rocks, and ties a gunny-sack around the upper portion of his body. Holes are made in the end of the sack to admit of the arms being thrust through them, and the mouth of the sack is fastened around his waist by a cord. The mouth is left very wide and serves as a pouch, for there the eggs are placed after they have been gathered. After the pouch-like aperture around the waist has been filled with the eggs the gatherer goes to the depositing place agreed upon and dumps them upon the rock. As the shells are hard they are not easily broken. He then returns for more. After a sufficient quantity has been gathered the eggs are put in baskets and carried on board the boat.

When the boat arrives in the city the eggs are placed in large boxes and are thus sold to the wholesale produce merchants, who in turn sell them to the retail dealers and bakers. The eggs usually bring from 15 to 20 cents a dozen. Several thousand dozens of these eggs are usually brought to the market in one boatload.

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's own true laxative. This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidneys, and bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

THE Shah of Persia has authorized the American missionaries to establish at Teheran a hospital in which, without regard to nationality or religion, all applicants for relief may be received for treatment. Dr. Torrence, physician to the mission, has been appointed director of the hospital, and an appeal is made for means to place it upon a working basis. For immediate use $5,000 is needed, and $10,000 will be necessary to finish the establishment. As a mark of appreciation of Dr. Torrence's zeal and devotion, applied gratuitously for many years in the relief of distress, the Shah has named him Grand Officer of the order of the Lion of the Sun of Persia.

XFLECTER.

A RUSSIAN officer, familiar with the subject, draws in *Life* (London) a lurid picture of the inner life of the Russian court. Despite the unceasing vigilance of the police, to which the Czar certainly owed his life the other day, no such thing as ordinary tranquillity or comfort is known in the imperial household. No one is trusted, for the nihilists have their adherents everywhere, even in the royal kitchen; no food can be eaten that is not previously tested; no room can be occupied, even for an hour at a time, without special precautions being taken against attack by explosives or otherwise. It is never known in what bedroom the Czar will sleep. Frequently, after being an hour in one bedroom, he changes to another, and he generally sleeps in a part of the palace, an attic, or even a cellar, where he is least likely to be looked for. It might be thought that the Emperor's driving in the open street was a proof of his courage, but this is not so. The danger there is no greater than it is in his study, guarded though he be indoors as well as out of doors by triple rows of bayonets. Nihilism is, in fact, a specter that haunts the Emperor night and day. That life should be worth living at such a price is hardly conceivable to the ordinary mind. That the Czar should, in such circumstances, be able to take an intelligent view of either foreign or domestic politics is out of the question.

Ely's Cream Balm was recommended to me by my druggist as a preventive to hay fever. Having been using it as directed since the 9th of August and have found it a specific for the much dreaded and loathsome disease. For ten years or more I have been a great sufferer each year, from August 9th till frost and have tried many alleged remedies for its cure, but Ely's Cream Balm is the only preventive I have ever found. Hay fever sufferers ought to know of its efficacy.—F. B. Ainsworth, Publisher, Indianapolis, Ind.

No railroad company makes any mistake when it insists that no employe shall drink intoxicating drinks. Even a saloon keeper in his state room feels safer with engineer, conductor and switchman whom he has never seen in front of his bar.

The street cars get a good patronage on market mornings from the residents who live along the line of the road. Early this morning the Calhoun street car was filled with people who had been attending the market and were taking huge baskets of vegetables home with them.

Geo. Harrison, a Pittsburg workman, had the thumb of his right hand pinched off between the grind stone and its frame work this morning. Charles Shine had the fingers and bones of one of his hands crushed in the Pittsburg yards by a truck load of lumber falling and a portion of the timber pinched his hand. Dr. Geo. C. Stemen attended the sufferers.

The auditor of state has issued a circular to the various county auditors instructing them to levy no tax for the new state house fund this year. He is of the opinion that the failure of the legislature to make a specific appropriation for the capitol justifies this course. The state house fund is not large enough to complete the capitol, but the auditor is of the opinion that enough money will be at command from delinquent taxes from various sources to supply the needs of the commissioners, at least until the next legislature can act.

One of the merriest excursion parties that has left this city for some time, was that of the African M. E. church to Warsaw this morning. They only filled one car when they left the south depot, but it was a car load of happy people, and the day will be spent by them among Warsaw's pleasant lakes in a delightful and enjoyable manner. The colored jubilee singers accompanied the excursion with their various stringed musical instruments, and to-night they will give an entertainment in the opera house at Warsaw that will be sure to delight the people of that place, as these colored singers are noted for their interesting concerts.

IT IS NOT TRUE.

Our assessment has not been raised by the Board of Equalization. There was no need of it; our valuation is always correct.

IT IS TRUE

However, that we are preparing ourselves for removal to our new quarters, south of the Aveline house block, on Calhoun street, and to open with a large new stock we have scaled down the prices on our entire stock to such a low figure that the appraiser could not value it any lower. Buyers of clothing, hats, caps and furnishing goods, make a note of it. We are knifing the prices; letting down the values to force the sales.

Mr. Fred Klusenkamp, foreman in one of the Muncie blacksmith shops, is the happy father of a ten pound boy.

The rules in regard to the watches carried by train men on many of the railroads will be more stringent after the first of next month.

Some of the men who were discharged from the Baltimore and Ohio railroad shops at Garrett have secured work here. It is reported that the Baltimore and Ohio will buy their engines hereafter and use the Garrett shops for doing repair work only.

THE SENTINEL solicits news from the shop men. The names of yourself, your wife, your children or your friends are as welcome to THE SENTINEL as gold dollars. We want to cover the entire city and give every bit of local gossip, besides a fresh telegraph report from every point of the world.

A novelty in the line of engine building is just now attracting the attention of engineers and builders. It is a locomotive designed by M. Estrage, a graduate of L'Ecole Polytechnique, which is to be experimented with on the southern lines of France. The new engine depends on its large sized driving-wheels for the sppeed of seventy-eight miles an hour which it is expected to make. The engine, tender and coaches are fitted with wheels 8¼ feet in diameter. The engine is of the outside cylinder type, with side-valve on top of cylinder, and all the gearing carried outside. The average speed which the engine is expected to make is between seventy-two and seventy-eight miles per hour with a train of loaded coaches.

The Court Asked to Dissolve Unhappy Marital Unions.

Joseph C. Cole sues for a divorce from Susannah Cole, whom he says is an opium eater, exceedingly quarrelsome, was lewd, afflicted with disease and is now an inmate of her daughter's bagnio, at Columbus, Ohio.

Phebe M. Creager sues for a divorce from Thomas F. Creager. Mrs. Creager resides in Jackson township and alleges her husband was cruel, improvident and addicted to drinking. She asks the custody of three children, two of whom are recent twins. Hon. Robert Lowry filed both complaints and appears as counsel for the plaintiffs.

Should not hesitate to wait upon those ill with such diseases as Small-pox, Cholera or Scarlet Fever. There is little to be feared by persons waiting on the sick if they will use Darbys Prophylactic Fluid freely. In sick rooms in should be exposed on a plate or saucer, and the patient sponged off with the Fluid diluted. For safety, cleanliness and comfort in the sick room the Fluid is indispensable.

Indianapolis Conspiracy Cases.

The Indianapolis tally sheet conspiracy trial is drawing to a close and arguments are in progress. From a careful reading of the testimony one is led to believe that Samuel E. Perkins is the guilty party, having admitted that he did the job. He attempts to implicate others but has no supporting evidence. It is hardly probable that there will be many convictions upon such testimony.

Double Track on Calhoun Street

is now under contract for $14,201, which will give a five-minute service on Calhoun street, as far south as one block south of the Murray Foundry, and on Creighton avenue a ten-minute service instead of twenty as formerly. The beautiful lots near Calhoun street and Creighton avenue in

THE WILLIAMS ADDITION,

will become more desirable and more valuable.

☞ Prices now are low on long time, with privilege of making payments, of any amount, at any time to stop interest. Calhoun street is Fort Wayne's great centre thoroughfare, passing through the heart of the city, and property in its vicinity is standard, always vendable and saleable.

Inquire of any of the Real Estate Agents in the city, who will be pleased to show plats and prices.

A RICH FIND.

Hesse Cassel Syndicate Excavate for a Brewery Foundation and Strike a Vein of Silver and Copperas.

Messrs John Dravert and Peter Trautman, two substantial citizens of Hesse Cassel, were in the city yesterday. Hesse Cassel is situated some nine miles northeast of Fort Wayne and in the settlement are some of the oldest and wealthiest farmers in the county.

Mr Dravert related to Peter Eggeman, the boot and shoe merchant, and others the story of a rich find out at the old village.

A syndicate was formed out there to construct a big brewery for the manufacture of "Berlin white beer." This brew is made directly from wheat. After it is first brewed quantities of water are added and the beer is steamed again, finally coming out of the vat as white and clear as light wine.

"We resolved to put our wheat into this business rather than sell it for 65 cents a bushel" said Mr. Dravert, "and we have arranged to buy up all the grain in our section of the country."

In excavating for the foundation for the brewery, which is to be an immense structure, the workmen came on to a rich vein of oil at a depth of four and five feet. An examination of the substance revealed the presence of silver, mixed with some copperas. Mr. Dravert brought samples of the ore to the city for analysis and a company is already formed to work the lode.

Simon Arentz, of this city, is interesting himself in the project and retains samples of the ore, which promises to be profitable.

In the meantime the brewery project will boom and the people of Hesse Cassel soon expect thriving miners out there to sip the tart beverage from the new brew.

TOO HOT.

The Late Crops Are in a Bad Way for the Want of Rain.

Up to this time the outlook for the farmer has been as bright as it well could be, but the condition of affairs now is such as to justly excite the most serious apprehension. The long continued heat and drought cut short materially the yield of hay and oats, and is burning up the pasturage. Much of the earlier corn is in silk, and such is sustaining the most serious injury. Corn in the silk must have rain, or the the ears will not fill, and the yield—what there is of it—will be all cob and no kernels, and a few country men say that potatoes are likely to roast in the earth. Persons who have driven over the country within the last day or two report that everything is fairly burning up and that the prolonged drought and heat threaten to assume the dimensions of a serious disaster.

THE BUCKEYE SLATE.

The Ohio Republicans Select a State Ticket—Governor Foraker Renominated—The Proceedings, the Platform and the Ticket.

TOLEDO, O., July 28.—The republican state convention was called to order at 10 o'clock by Chairman Ryan. The committee on credentials and rules reported, and it was adopted, and ex-Governor Charles Foster, chairman of the committee on resolutions, read the platform, as follows:

1. We are in favor of a protective tariff, to secure to American citizens the privilege of supplying every article which can be produced as well in the United States as in all other countries, sufficiently to supply American wants. We denounce the Ohio democratic platform of tariff for revenue only, and which demands an indiscriminate reduction in all the duties on imported articles, the effect of which would be to encourage importations, thus giving the American patronage to foreign producers and foreign labor, rather than to our own.

2. While we adhere to the public policy, under which our country has received from Europe great bodies of honest, industrious citizens, who have added to the wealth, progress and power of our country, and while we welcome to our shores the well disposed and industrious emigrant, who contributes by his energy and intelligence to the cause of free government, we view with alarm the unrestricted immigration from foreign lands as dangerous to the peace and good order of the country and the integrity and character of its citizenship. We urge upon congress to pass such laws and establish such regulations as shall protect us from the inroad of anarchists, communists, polygamists, fugitives from justice, insane, dependent paupers, vicious and criminal classes, contract labor in every form, under any name or guise, and all others, who seek our shores, not to become part of our civilization and citizenship, who acknowledge no allegiance to our laws, no sympathy with our aims and institutions, but who come among us to make war upon society to diminish the dignity and rewards of American workingmen and degrade our labor to their level. We recognize also the dangers which menace American labor at home and condemn as hostile to its cause and as subversive to its dignity and power the bold and persistent usurpation, in many states, of its political rights and privileges. The condition of men who labor in the north cannot be maintained or improved so long as the men who labor in the south are wrongfully deprived of the rights and powers of American citizenship. Their labor meets in close and immediate competition, and neither can be degraded without striking at the prosperity and independence of others. Recognizing these plain truths, we demand a free ballot and a fair count in all sections of our country. We demand it and will ever demand it as the only source of justice to the real producers of prosperity and wealth, and the sole security of the republic and its free institutions.

3. We deprecate the national strife and divisions. We have placed war with its hates and revenges behind us, but the settlers of the war must stand irrevocable—respected, honored and observed in every part of the republic. More we have never demanded, less we will not have. Congress should exercise its constitutional authority and take control and supervision of the actions of representatives to congress.

4. We demand such duties on wool and manufactures thereof as will secure the American market to American producers. We denounce the demand made under President Cleveland's administration by the secretary of the treasury for "the immediate passage of an act placing raw wool upon the free list," and we denounce the democratic state platform which proclaims its hearty and unqualified endorsement of said administration and demands a "reduction of the present duties on wool and on woolen and worsted goods. We earnestly protest against the demands of the secretary of the treasury in customs, cases in the interest of the foreign producer and foreign labor as in opposition to the letter and spirit of the tariff laws.

5. We favor liberal pensions to the soldiers and sailors of the union; adequate appropriations for improvement of our water-ways, and national aid to education. If too much revenue be collected to meet these and other public needs, we demand that the first step in the reduction thereof shall be the abolition of the internal revenue tax upon American grown tobacco.

6 That the public lands of the United States be sacredly held for the use and benefit of actual settlers alone and that the laws prohibiting the owning of these lands by corporations and non-resident aliens should be rigidly enforced.

7. While we condemn the false pretenses of President Cleveland's administration of the civil service law, we advocate the maintenance and proper enforcement of said law and demand such additional legislation as will remove appointments from partisan influence.

8. The republican party has ever been a friend of oppressed nationalities and we extend a hearty sympathy to Gladstone, Parnell and their associates in their efforts to secure home rule for Ireland.

9. We condemn the action of Cleveland in vetoing pension bills, and especially we denounce the spirit manifested toward the maimed and disabled soldiers of the country in the language in which certain of his vetoes are couched, and we condemn as unjust and unmerited his veto of the dependent pension bill, and declare that it was in plain violation of the nation's pledges to its defenders and of the oft repeated promises of the democratic party of the north, made during the political campaigns to secure votes. We demand of congress that it pass, and of the president that he approve liberal enactments pensioning the soldiers of the country that the helpless widows of dead soldiers, regardless of the cause of death, disabled soldiers and dependent parents shall receive the bounty of the nation they fought to save, and which they richly deserve.

10. This section favored protection to the innocent infringers of patents.

11. We heartily endorse the administration of Governor Foraker as wise, prudent, firm and economical, and we do especially endorse and approve his patriotic declaration that no rebel flags shall be surrendered while he is governor, and we further endorse and approve his prompt action in instituting measures to prevent the unlawful order of President Cleveland being executed.

12.—This section condemns frauds, forgeries and crimes committed by the democrat party in Ohio in the election of 1885 and endorses the action of the legislature to prevent the consummation of that crime.

13.—We point with just pride to the enactment of the Dow law, in the fulfillment of the promises of the Republican party and we pledge ourselves to such further legislature as may be necessary to keep abreast with the question to the end that the evil resulting from the traffic in intoxicating liquor be restrained to its utmost possible extent in all parts of the state.

14.—We favor such legislation as will secure to the agricultural commercial and industrial interests of the state equally without discrimination in favor of any citizen or corporation, the benefits of transportation by common carriers at the lowest rates consistent with justice and that the water ways of the state should be sustained and improved, so as to secure to the people the full benefits thereof.

15. (This is the Sherman endorsement.)

When the last resolution of the Sherman endorsement was reached the cheering broke out, and on a call from a delegate three cheers were given for Sherman before the reading could continue. Its close was marked by loud cheers and a motion was made to adopt the whole platform by acclamation. It was done without a dissenting voice.

Cheering followed and loud calls were made for Sherman but he did not appear.

The report of the committee on permanent organization was read and adopted.

Hon. John Sherman was made chairman.

A committee of three was appointed to conduct Mr. Sherman to the chair which they did amid prolonged cheering.

His speech was listened to with close attention and received with every demonstration of applause. Especially his disclaimer that the endorsement resolution had any binding effect on the district conventions next year.

Dr. Graydon of, Cincinnati, nominated Governor Foraker for his second term in a ten minutes speech.

The motion was carried by acclamation amid a whirlwind of cheers.

A committee was appointed to escort Foraker to the hall. The nomination for lieutenant governor was proceeded with. Hon. Asa Bushnell, of Springfield, was named, but declined because of imperative business interests, which would suffer. Senator Thos. J. Pringle, of Springfield, and also Capt. W. C. Lyons, of Newark, were announced.

At this moment Governor Foraker was escorted to the platform amid cheers. He accepted the nomination for governor amid cheers, in which he made answer to some charges made against him by the democratic platform.

Captain Lyons was chosen for lieutenant governor on the second ballot and Judge William Spear was nominated for supreme judge for long term by acclamation. For the short term, Judge F. B. Dickman was renominated on the first ballot.

RAILROAD HORROR.

A Fearful Railroad Wreck in Illinois Causes the Death of Twelve Persons and Injures Others.

BLOOMINGTON, Ill., July 28.—A construction train on the Chicago & Alton, on which were nearly 100 laborers, was run into by a freight train at 3:30 p. m., yesterday, and the result was a dreadful smash-up with serious loss of life. The freight train was bound for Kansas City and met the construction train on the Oweesdorff bridge, near Hopedale, 25 miles from Bloomington. The following were killed on the construction train:

Morton Dunath, water carrier, of Delavan, Ill.

James Brown, of Hopedale, Ill.

Frank Drake, of Petersburg, Ill.

Plano Barrow, of Ashland, Ill.

James Kellogg, residence unknown.

Nine were wounded. The responsibility for the wreck has not been located.

A special from Pekin, Ill., says: Ten dead bodies have been taken from the wreck of the construction train at Hopedale and eight men are unaccounted for. It is supposed the missing men are dead in the wreck, in which case the number of dead is 18, with a probability that the list will be swelled to twenty-two by the death of those supposed to be fatally injured.

LATER.

Twelve persons have died from the injuries received on the Chicago and Alton railroad, and at least thirty were injured, most of them slightly.

PITTSBURG, July 28.—Early this morning an engine and mixed freight train fell through the Mt. Savage bridge, a few miles west of Cumberland. The engineer, Wm. Driscoll, and Fireman William Paton were instantly killed.

READING, PA., July 28.—A covered wagon was run into by a train on the Pennsylvania railroad at Ridgewood station this morning and four persons killed.

IS IT A COMBINE?

The Lowest Bidder for the Water Works Wells Abandons His Contract—The Council Asked to Investigate.

Yesterday afternoon Water Works Trustees Hedekin and Kuhkle met at their office and awarded the contract of sinking four wells at the pumping house to Mr. Ehler, of Lima. He signed a contract to build four wells at the following figures:

First well, 500 feet, $1,400.

Three additional wells, 600 feet, $1,150 for each well.

Making a total of $4,850 for four wells.

Mr. Ehler left for Lima ostensibly to procure a bond. This morning he sent a dispatch, saying he could not sink the wells—at least for a long time.

This leaves the trustees at the tender and willing mercy of Mr. W. M. Weesler, the other bidder for the work. His figures are not at hand, but they are considerably higher than those of Mr. Ehler's.

Mr. Weesler did not leave town when the contract for the well was awarded to Mr. Ehler. He remained over to note the natural and other beauties of the city and bobbed up in the presence of the water works trustees this morning.

To be sure nothing of the sort would be possible, but to the fellow standing on the reservoir the affair smacks loudly of a combination to squeeze the city out of a thousand or two additional dollars, by compelling her to let the highest bidders sink the wells.

Happily no contract with anyone holds good until the council ratifies it. Parties were around last evening trying to get the council into special session to ratify the well contracts, but the matter began to leak out and a nice expose is promised, because the council will not act on this matter without an investigation.

But these fellows don't want work. They can get through the world without it, and the tramp force is constantly increasing in numbers.

BASE BALL.

Trouble Among the Clubs of the American Association and Four of Them Threaten to Withdraw.

NEW YORK, July 28.—Another startling baseball sensation was started yesterday. It was said that at least four of the American association clubs were to resign. The fight in the association has now assumed such a threatening look that it bids fair to demoralize the organization, as at least four clubs have threatened to withdraw, unless the percentage system is adopted. The St. Louis, Louisville, Cleveland and Metropolitan clubs are the four. Von der Ahe will go into the league unless the change is made.

To a reporter Mr. Von der Ahe said: "I have about determined to leave the association because of the way I have been treated. This man Wikoff is incompetent and does as he is told by Byrne. I have done with the whole lot of them. I have made money for them all, but they can't make money for me, and besides, what little I might make is taken back in fines. Last year I paid three-quarters of all the fines imposed or nearly $800 of the $1,200 paid into the treasury.

WHAT THEY COST.

A Huge Pile of Money Expended on the Water Works and Useless Supply Experiments.

To the Editor of The Sentinel.

Please state in THE SENTINEL what the water works cost and also the cost of the useless experiments on the water supply.

Yours truly, W.

According to the report of the trustees, the total cost of the water works is $370,913.50.

The cost of the useless experiments on a water supply is summed up from official figures as follows:

Reservoir ground—$24,000, useless.

Reservoir hill—$27,273.16, useless.

Supply line to St. Joe river—$6,300, useless.

Well at S. Joe river—$5,506.71, useless.

Spy Run construction—$3,447.56, some use.

Filter basin—$12,212.85, some use.

Last, but not least, sulphur wells—estimated cost $4,850, real cost unknown.

The experiment on gas wells hereabouts have developed only flowing sulphur wells. It is improbable that Providence will send any other sort of water bubbling to the trustees.

Chemists say that sulphur water will eat and ruin every bit of iron it touches inside of ten years. We all know sulphur water is unfit for household uses, so that all expenditures in that direction is not only useless, but aimed to wipe out every useful and available thing the people have left for their expenditure of $370,913.50.

P. S.—The sulphur water will leave one thing intact—the water works debt.

MRS. L. S. ROLLINS

Is Arrested for Violating the Revenue Law at Monroeville—The Trouble Down There.

Mr. James Wilkinson, the deputy United States marshal, went to Monroeville this morning and arrested Mrs. L. S. Rollins, on an affidavit filed by Marshal Isaac Copps, of that village. It is charged that Mr. Rollins takes out a government license to sell liquors and then turns the business over to his wife. This is contrary to Uncle Sam's regulations hence the arrest.

The trouble, however, is but a continuation of a former collision between the marshal and Mrs. Rollins. It seems that the town council ordered a new side walk constructed in front of the Rollins property. Mr Rollins objected and stationed his wife on the side walk to obstruct construction. Marshal Copps heaved her off gently and was arrested for assault. Thus began the neighborhood jar that sets Monroeville society all agog.

Mrs. Rollins was arraigned before United States Commissioner Harper and her trial is in progress as we go to press.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar" stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

BEWARE OF IMITATIONS. ALWAYS ASK FOR DR. PIERCE'S PELLETS, OR LITTLE SUGAR-COATED PILLS.

Being entirely vegetable, they operate without disturbance to the system, diet, or occupation. Put up in glass vials, hermetically sealed. Always fresh and reliable. As a laxative, alterative, or purgative, these little Pellets give the most perfect satisfaction.

SICK HEADACHE, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Pellets over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a gland or tissue escaping their sanative influence. Sold by druggists, 25 cents a vial. Manufactured by the Chemical Laboratory of World's Dispensary Medical Association, Buffalo, N. Y.

$500 REWARD

is offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Chronic Nasal Catarrh which they cannot cure.

SYMPTOMS OF CATARRH. Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood by physicians.

By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of Catarrh, "cold in the head," Coryza, and Catarrhal Headache. Sold by druggists everywhere; 50 cents.

That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It's a non-intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve."—P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

GATHERING SEA-FOWL EGGS.

How San Francisco Fishermen Glean a Strange Harvest from Rocky Islands.

During the last eighteen or twenty years some of the fishermen of this city have been in the habit of going to the Farallones during the laying season for the purpose of gathering eggs, says the San Francisco *Call*. It is a business by no means unattended with danger. It is extremely difficult to scale the sides of the rocky islets and to gather the eggs, as the gatherer must often go in almost inaccessible places. He must often be lowered down over cliffs and frightful chasms by means of a rope, and if the rope were to be broken by the friction against some jagged side his life would pay the forfeit. Then, again, he is often attacked by the birds that he despoils of their eggs, and when they attack him in numbers he frequently has a hard time of it. They strike him with their wings, but usually cannot harm him seriously, though their annoyance shakes the nerves.

The murre or auk, which is a large but cowardly bird, when despoiled of its eggs will fly screaming away, and will make no attempt to wreak vengeance upon the despoiler. Not so the gull. This oleaginous lover of the briny deep will attack the gatherer and fly at and strike him with its wings.

Only the eggs of the gull and murre are gathered, as they are the only kind that are in the least edible. The murre is a bird of the great auk family, and in more northern latitudes is known as the penguin and puffin. It is of about the size of a goose and has a long, curved bill. Its eye has a stupid look, like that of the goose, and its plumage is of a dark-brown color. It is quite numerous in these waters. Its egg is larger than that of a turkey, and by some people it is considered a great delicacy. The egg is oval in shape, of various colors, and has longitudinal black stripes. One lady informed the writer that murre eggs fried and washed down with whisky made a delicious dish. "They are a little strong," the lady said, "but the whisky will take away the strong taste." Doubtless that lady was blessed with an ostrich-like stomach. The eggs are mostly used by the bakers in the composition of their bread, pies, and pastry. As they are much cheaper than domestic fowl eggs it can readily be perceived why they are used. The eggs of the gull are somewhat larger than a duck egg, and are of a brownish hue, spotted, and oval in shape. They also are a trifle strong.

When the gatherer goes out on a gathering expedition he puts on gum boots so as to prevent himself from slipping on the steep rocks, and ties a gunny-sack around the upper portion of his body. Holes are made in the end of the sack to admit of the arms being thrust through them, and the mouth of the sack is fastened around his waist by a cord. The mouth is left very wide and serves as a pouch, for there the eggs are placed after they have been gathered. After the pouch-like aperture around the waist has been filled with the eggs the gatherer goes to the depositing place agreed upon and dumps them upon the rock. As the shells are hard they are not easily broken. He then returns for more. After a sufficient quantity has been gathered the eggs are put in baskets and carried on board the boat.

When the boat arrives in the city the eggs are placed in large boxes and are thus sold to the wholesale produce merchants, who in turn sell them to the retail dealers and bakers. The eggs usually bring from 15 to 20 cents a dozen. Several thousand dozens of these eggs are usually brought to the market in one boatload.

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's own true laxative. This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidneys, and bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

THE Shah of Persia has authorized the American missionaries to establish at Teheran a hospital in which, without regard to nationality or religion, all applicants for relief may be received for treatment. Dr. Torrence, physician to the mission, has been appointed director of the hospital, and an appeal is made for means to place it upon a working basis. For immediate use $5,000 is needed, and $10,000 will be necessary to finish the establishment. As a mark of appreciation of Dr. Torrence's zeal and devotion, applied gratuitously for many years in the relief of distress, the Shah has named him Grand Officer of the order of the Lion of the Sun of Persia.

New Haven News.

Mrs. A. Berry, of Portland, Ind., has been visiting friends here for the past few days.

J. Brandon, it is rumored, expects to leave us soon. He intends going to Aboite, Ind., to manage the handle department of Knowlton's mills.

Mrs. C. Clossen left Tuesday evening to visit her parents at Jacksonville, Ill.

Schnitker & Fisher's handle factory has shut down for want of timber, but expects to start up soon.

John B. Bichel, one of our most enterprising clerks, thinks there should be a force pump put in the town well, and went out soliciting subscriptions from the business men for this purpose. He succeeded very well. John has considerable force about him, but he cannot "pump" Uncle L. M.

H. F. Schnelker is building a beautiful residence on Main street. The foundation is completed. Architect Matson, of Fort Wayne, superintends the building.

THE SENTINEL is out-doing all other papers here. Its subscription has doubled in the past two weeks, and it is read with interest by your many subscribers.

XYLECTER.

A RUSSIAN officer, familiar with the subject, draws in *Life* (London) a lurid picture of the inner life of the Russian court. Despite the unceasing vigilance of the police, to which the Czar certainly owed his life the other day, no such thing as ordinary tranquillity or comfort is known in the imperial household. No one is trusted, for the nihilists have their adherents everywhere, even in the royal kitchen; no food can be eaten that is not previously tested; no room can be occupied, even for an hour at a time, without special precautions being taken against attack by explosives or otherwise. It is never known in what bedroom the Czar will sleep. Frequently, after being an hour in one bedroom, he changes to another, and he generally sleeps in a part of the palace, an attic, or even a cellar, where he is least likely to be looked for. It might be thought that the Emperor's driving in the open street was a proof of his courage, but this is not so. The danger there is no greater than it is in his study, guarded though he be indoors as well as out of doors by triple rows of bayonets. Nihilism is, in fact, a specter that haunts the Emperor night and day. That life should be worth living at such a price is hardly conceivable to the ordinary mind. That the Czar should, in such circumstances, be able to take an intelligent view of either foreign or domestic politics is out of the question.

Ely's Cream Balm was recommended to me by my druggist as a preventive to hay fever. Having been using it as directed since the 9th of August and have found it a specific for the much dreaded and loathsome disease. For ten years or more I have been a great sufferer each year, from August 9th till frost and have tried many alleged remedies for its cure, but Ely's Cream Balm is the only preventive I have ever found. Hay fever sufferers ought to know of its efficacy.—F. B. Ainsworth, Publisher, Indianapolis, Ind.

The street cars get a good patronage on market mornings from the residents who live along the line of the road. Early this morning the Calhoun street car was filled with people who had been attending the market and were taking huge baskets of vegetables home with them.

Wm. Harrison, a Pittsburg workman, had the thumb of his right hand pinched off between the grind stone and its frame work this morning. Charles Shine had the fingers and bones of one of his hands crushed in the Pittsburg yards by a truck load of lumber falling and a portion of the timber pinched his hand. Dr. Geo. C. Stemen attended the sufferers.

The auditor of state has issued a circular to the various county auditors instructing them to levy no tax for the new state house fund this year. He is of the opinion that the failure of the legislature to make a specific appropriation for the capitol justifies this course. The state house fund is not large enough to complete the capitol, but the auditor is of the opinion that enough money will be at command from delinquent taxes from various sources to supply the needs of the commissioners, at least until the next legislature can act.

One of the merriest excursion parties that has left the city for some time, was that of the African M. E. church to Warsaw this morning. They only filled one car when they left the south depot, but it was a car load of happy people, and the day will be spent by them among Warsaw's pleasant lakes in a delightful and enjoyable manner. The colored jubilee singers accompanied the excursion with their various stringed musical instruments, and to-night they will give an entertainment in the opera house at Warsaw that will be sure to delight the people of that place, as these colored singers are noted for their interesting concerts.

Dr. Lesher Trexler is still very ill.

L. M. Jones, the real estate man, is very sick.

Mrs. E. F. Yarnelle and children are at Rome City.

The aged father of Policeman Jos. Gusching is sick.

Mr. Samuel Miller and son Oscar, went to Hartford City last evening.

Mr. and Mrs. L. H. Lose have returned from a visit in Pennsylvania.

Mr. C. M. Dawson and his family returned last night from Maxinkuckee.

Prof. J. H. Smart has reorganized the faculty at Purdue university at Lafayette.

Miss Celia Tapp, of Ohio street, has just returned from a two weeks' visit to Chicago.

Mr. M. Franz and family are sojourning at Maxinkuckee to be absent about ten days.

There is still a demand that the commissioners build a new bridge over Spy Run avenue.

Esquire Ryan presided over the destinies of the city to-day, in the absence of Mayor Muhler.

Misses Carrie Henderson and Georgia Gable left to-day for Dunfee, Ind., to visit a few weeks with relatives.

Mr. Stewart, of the Boston store, left with his family last evening for Norwich, Conn., to permanently reside.

A fellow who was bathing in the St. Mary's river, near the Pittsburg railroad bridge, came near drowning last night.

The Kalamazoo celery growers have formed a society, its chief object being to fine a member $2.50 for cutting down prices.

The excursion of the order of railway conductors, of Andrews, to Warsaw, Wednesday, August 10th, promises to be a grand success.

Workmen are laying track on Calhoun street for the new north side extension of the street car line. The company will soon order fourteen new cars.

Rev. D. S. Kennedy, pastor of the Third Presbyterian church has returned from his vacation, and will conduct regular services in his pulpit on next Sabbath.

Mrs. John Welch, of Brandriff street, was stricken suddenly ill last night and is in a precarious condition. Her husband is a veteran employe of the Pittsburg shop.

The officers have been notified that $2,500 will be paid for any information that will lead to the arrest of William J. McGarigle, the Chicago "boodler" who escaped last Saturday night.

The Centlivre street car line is completed from the river bridge to within a short distance of the brewery. Three summer street cars will be shipped from St. Louis on Saturday next for the new line.

The Kendallville *News* says: "Miss Minnie Southworth left the first of the week for Fort Wayne, where she will visit friends. She will also make friends at Bremen and Plymouth a visit before returning home."

Rev. D. S. Kennedy, pastor of the Third Presbyterian church, who has been spending his vacation in Wisconsin and the northwest, returned home last night and will occupy his pulpit as usual next Sabbath morning.

Last Tuesday evening at St. Joseph's hospital, died Sister M. Theresia. She was born and raised in the city, and was favorably known. She was known to the world as Miss Anna Manok. Funeral services from chapel at 8 o'clock Friday morning.

The Richmond *Palladium* says: "H. W. Fry, of Fort Wayne, will visit this city this week, and attempt to institute a lodge of the Benevolent Legion. He is deputy supreme chancellor, and will go from here to Indianapolis to the Grand Lodge."

Mayor Muhler, Chief Diehl, Councilmen Woulfe, Doehrman and Michael, and Engineer John Schrader, of the fire department, went to Chicago on the limited express this morning to examine the police alarm system it is proposed to establish in this city. The alarm manufacturers pay the expense of the trip.

The Bremen *Examiner* says: "Rev. Duehmig, of Avilla, who held services here in the Catholic church last Sunday, met with quite a serious accident before leaving for home. He went to the water tank in the evening to get on the fast train, but the train failed to stop. While returning to the city he was bitten in the leg by a vicious dog, making quite a serious wound."

The Auburn *Courier* says: "Dr. McHenry, now residing at Larwill, but formerly of Maples, in Allen county, was in town last week visiting his daughter, Mrs. Mark Barney. He was very much pleased with our town and thought it probable he might become a citizen. We would welcome him as he has represented Allen county twice in the legislature, and is a man of ability and wealth."

The first English district, now holding its 31st annual convention in the St. John's Lutheran church at Huntington, is one of the six districts composing the Evangelical Lutheran joint synod of Ohio and other states. This joint synod is composed of about 450 congregations, 300 pastors, 75 teachers, 45,000 communicant members, and is supporting a thriving college and theological seminary, at Columbus, Ohio, manned by an efficient corps of eight professors, Prof. M. Loy, D. D., president. This synod also controls another Theological seminary at Afton, Minn., School teachers seminary at Woodville, Ohio, and an Orphans home, at Richmond, Indiana.

IT IS NOT TRUE.

Our assessment has not been raised by the Board of Equalization. There was no need of it; our valuation is always correct.

IT IS TRUE

However, that we are preparing ourselves for removal to our new quarters, south of the Aveline house block, on Calhoun street, and to open with a large new stock we have scaled down the prices on our entire stock to such a low figure that the appraiser could not value it any lower. Buyers of clothing, hats, caps and furnishing goods, make a note of it. We are knifing the prices; letting down the values to force the sales.

IN THE BUSY WORLD.

Personal Points and Pithy Paragraphs Picked up Around the Shops and Railroads of the City.

The railroads are busy improving their tracks and road bed.

Business in the manufacturing establishments of the city is booming.

The Nickel Plate will repair their crossing on Main and Clay streets.

The excursion fever seems to have died out. It will start up again with a rush.

Frank Wise, of the Nickel Plate freight office, has returned from his trip to James Lake.

White's wheel works are having a rush of business and their employes are putting in full time.

Stephen Swain, of the Bass works, is rejoicing over the arrival of a bran new boy at his home.

Mrs. Thomas Jackson, the wife of Roadmaster Jackson, of the Pittsburg, is visiting friends at Chicago.

Mr. Fred Klusenkamp, foreman in one of the Muncie blacksmith shops, is the happy father of a ten pound boy.

The rules in regard to the watches carried by train men on many of the railroads will be more stringent after the first of next month.

Some of the men who were discharged from the Baltimore and Ohio railroad shops at Garrett have secured work here. It is reported that the Baltimore and Ohio will buy their engines hereafter and use the Garrett shops for doing repair work only.

THE SENTINEL solicits news from the shop men. The names of yourself, your wife, your children or your friends are as welcome to THE SENTINEL as gold dollars. We want to cover the entire city and give every bit of local gossip, besides a fresh telegraph report from every point of the world.

A novelty in the line of engine building is just now attracting the attention of engineers and builders. It is a locomotive designed by M. Estrage, a graduate of L'Ecole Polytechnique, which is to be experimented with on the southern lines of France. The new engine depends on its large sized driving wheels for the speed of seventy-eight miles an hour which it is expected to make. The engine, tender and coaches are fitted with wheels 8½ feet in diameter. The engine is of the outside cylinder type, with side-valve on top of cylinder, and all the gearing carried outside. The average speed which the engine is expected to make is between seventy-two and seventy-eight miles per hour with a train of loaded coaches.

TWO OF 'EM.

The Court Asked to Dissolve Unhappy Marital Unions.

Joseph C. Cole sues for a divorce from Susannah Cole, whom he says is an opium eater, exceedingly quarrelsome, was lewd, afflicted with disease and is now an inmate of her daughter's bagnio, at Columbus, Ohio.

Phebe M. Creager sues for a divorce from Thomas F. Creager. Mrs. Creager resides in Jackson township and alleges her husband was cruel, improvident and addicted to drinking. She asks the custody of three children, two of whom are recent twins. Hon. Robert Lowry filed both complaints and appears as counsel for the plaintiffs.

A Good Nurse

Should not hesitate to wait upon those ill with such diseases as Small-pox, Cholera or Scarlet Fever. There is little to be feared by persons waiting on the sick if they will use Darbys Prophylactic Fluid freely. In sick rooms it should be exposed on a plate or saucer, and the patient sponged off with the Fluid diluted. For safety, cleanliness and comfort in the sick room the *Fluid* is indispensable.

Indianapolis Conspiracy Cases.

The Indianapolis tally sheet conspiracy trial is drawing to a close and arguments are in progress. From a careful reading of the testimony one is led to believe that Samuel E. Perkins is the guilty party, having admitted that he did the job. He attempts to implicate others but has no supporting evidence. It is hardly probable that there will be many convictions upon such testimony.

Gas News.

The gas well at Auburn is down 1000 feet.

Yorktown has a strong gas well.

Salem commenced drilling for gas Saturday.

Seymour gas well has been shot and a small supply obtained.

Windfall gas well is down about 850 feet, with good indications.

The gas well project at Columbia City closed in a row.

That Rarest of Combinations.

True delicacy of flavor with true efficacy of action, has been attained in the famous California liquid fruit remedy, Syrup of Figs. Its pleasant taste and beneficial effects have rendered it immensely popular. Large bottles for sale by Thieme and Gross.

Call soon if you want to get a first-class bargain, at Morgentheim's Bazaar, northwest corner Calhoun and Main streets.

Respectfully,
A. MORGENTHEIM.

"Our Special Customer" is the best 5c cigar in the city.

Another Excursion to Hartford City. Sunday, July 31, 1887.

Owing to their inability to accommodate the crowd on the 24th, the F. W., C. & L. R. R. will run another special train from Fort Wayne to Hartford City and return on Sunday, July 31, 1887, for the purpose of giving the people an opportunity of seeing the largest gas well in Indiana. This well has a capacity of 20,000,000 feet of gas per day and makes a noise like the roaring of Niagara. The citizens of Hartford City will display the burning well in all its beauty and grandeur. Train will leave Fort Wayne, (north depot) at 3 o'clock p. m., arriving at Hartford City at 5 p. m. Returning leave Hartford City at 9 p. m.

Fare for the round trip only 75 cents. 25-6t
